Zscaler Digital Transformation Administrator

60 questions | 90 minutes | Professional Level

Prerequisites | Zscaler for Users - Administrator (EDU 200) Course & Lab

The Zcaler Digital Transformation Administrator exam is the final step to earn Zscaler Digital Transformation Administrator certification. This proctored exam is recommended for candidates who have a minimum of 6 months experience in the Zscaler platform. The course and hands-on lab, Zscaler for Users - Administrator (EDU 200), help candidates prepare for the exam and are required prerequisites.

The following topics are general guidelines for the content likely to be included on the exam; however, other related topics may also appear on any specific delivery of the exam. In order to better reflect the contents of the exam and for clarity purposes, the guidelines below may change at any time without notice.
